## Projects

- Portfolio Site (<https://shivam1raj5.github.io/Portfolio>)**  
I have created this Static Portfolio site using HTML, CSS, Bootstrap, JavaScript and deployed on GitHub. I have provided the Information about me such as my social media and Competitive Programming platform links, My skills, Education, and Projects.
- Calculator App ([https://github.com/shivam1raj5/Calculator\\_App\\_Flutter](https://github.com/shivam1raj5/Calculator_App_Flutter))**  
A simple mathematical operations calculator app, created using Flutter.

- **Catalog App** ([https://github.com/shivam1raj5/Catalog\\_App](https://github.com/shivam1raj5/Catalog_App))

I have created this Catalog App using Flutter. This App gets product data from Json file and display there details. In this App user see the products and add into the cart, In the cart user can see total prices of there selected product and remove the selected items as per their choice. This App is platform independent.

- **Tic-Tac-Toe App** ([https://github.com/shivam1raj5/Tic\\_Tac\\_Toe\\_App\\_JAVA](https://github.com/shivam1raj5/Tic_Tac_Toe_App_JAVA))

This Java-based Tic-Tac-Toe application provides an engaging and user-friendly platform for playing the classic game.
